

CODE: AD660S

Calendar Clock with Day spelt in full

FEATURES:

This modern large format digital flipcard calendar clock can easily be read from 15 metres distance. Both the day of the week and the month are spelt in full, which is ideal for memory assistance. Additionally the weekend days are highlighted with different background colours which also aids memory orientation.

The flat based casing with a square-edged wrap-around perspex lens allows the clock to sit on either a flat surface or mounted flush against the wall. This clock operates with a reliable Japanese quartz movement and includes an AM/PM indicator.

IDEAL FOR:

Memory Impaired • Home or Office

HEIGHT 240 mm
WIDTH 320 mm
DEPTH 110 mm
WEIGHT 1500 grams
BATTERY SIZE 2 x C and 1 X AA
