

CODE: BQ368

DAY, MONTH AND YEAR CLOCK

JADCOtime
Specialist Clocks & Timers

FEATURES:

A large 475mm diameter analogue clock with an automatic calendar insert — the only one including the year. Easily read from 15 meters. Like all our calendar clocks, the BQ368 is useful wherever people are completing forms and as a reminder for the day of the week for people with memory loss.

Features include a reliable German movement and an automatic calendar function that self-adjusts for leap years. The flip card display remains readable under fluorescent lighting, unlike many LCD clocks.

IDEAL FOR:

Government Departments • Boardrooms • Reception Areas • Nursing Homes • Living Rooms

DIAMETER 475 mm
WEIGHT 3.3 kg
BATTERY SIZE 1 x C (included)
