

CODE: 8040WH

**ELECTRIC ANALOGUE CLOCK**  
300mm diameter

**FEATURES:**

This electric analogue wall clock features a durable white metal rim with a raised convex perspex lens. The easy-to-read 300mm dial with large clear numerals includes silent synchronous hour, minute and second hands. The motor casing on the back is easily accessible for an electrician to hard-wire into mains power.

You can print off a life-size photo of this and view our other analogue clocks from [www.jadcotime.com.au](http://www.jadcotime.com.au).
