

CODE: QT30

Compact Digital Clock

Setting instructions:

1. Remove control doors and zero minute flaps by pushing down the minute handle on left hand side facing rear. Stop at any whole hour (e.g. 11:00 am).
2. Remove battery compartment cover. Take out the battery, remove the plastic wrap, and then re-insert the battery in the correct pole (+/-).
3. Set the correct hour by pushing down the handle on right hand side facing rear.
4. Set the minute time one minute ahead of the correct time.

POWER SUPPLY 1 X 1.5V BATTERY (SIZE C)
