12 MONTHS PARTS AND LABOUR WARRANTY

Slimline LED mains-powered calendar clock displaying day, month and date in European format. The 40mm wide ABS case allows for the clock to sit flat on a surface or hanging holes allow for wall mounting.

Clear non-flickering red LED with anti-glare acrylic lens allows for easy viewing from all angles. The LED can be adjusted to 3 brightness levels. Back-up internal battery maintains settings during power outages. Easy to read up to 30 metres.

Functions include: 12 or 24hr time option with AM/PM indicator for 12 hour time.16 alarm settings (with one minute alarm beep)

Clock settings can be changed via buttons on the rear of unit or by using the supplied remote control. A compartment to store the remote is built into the back of the clock.
